<b>AGING</b>	The wine remains on the yeasts for about 3 months in steel vats, and then it rests in bottle for another 2 months.
<b>ALCOHOL CONTENT</b>	12.5%
<b>OENOLOGIST</b>	Riccardo Cottarella

#### TASTING NOTES

Straw-colored yellow with golden tints. The bouquet is generous and pronounced with delicate aromas of pear. On the palate, the flavor is resolute, harmonious, and full-bodied. Wonderful as an aperitif, it pairs well with fish and white meat. Excellent with pasta and clam sauce and seafood risottos.

#### ABOUT THE WINERY

Since the 1970's, Tenuta S. Anna has been pushing the limits of innovation in winemaking. The care put into selecting the varietal wine, research and attention to detail, are the foundations on which Tenuta S. Anna has modeled its success. Tenuta S. Anna was founded in the early sixties in Loncon di Annone Veneto, right in the heart of the DOC Lison Pramaggiore area, where the tradition of winemaking has remained deeply rooted since the times of the ancient Romans.

The Azienda immediately made a name for itself with its excellent products and distinctive practice of enhancing single varieties of grapes: single-variety vinification brings out the best of each grape. Great attention is also given to bottling, with a special bottle design and distinctive rhomboid-shaped label that depict works of art, representing the uniqueness and prestige of each wine. Sant'anna is part of the Le Tenute di Genagricola portfolio of wineries.
