

MONTCALM
WINE IMPORTERS, LTD

WINERY	V8+ Vineyards
WINE	Rosé Vino Spumante Rosato Brut 'Sior Lele'
REGION	Veneto
VARIETAL	Blend of selected red grapes
ALTITUDE	30–45 meters above sea level
TYPE OF PLANTING	Traditional
SOIL	Clayey, with a good amount of stones
VINIFICATION	Harvested grapes are de-stemmed and crushed gently. The must is transferred into steel vats for fermentation where it comes into contact with the grape skins that gives it a light coloring. Then it goes through second fermentation in steel tanks for at least 40 days.
ALCOHOL CONTENT	11.5%
OENOLOGIST	Riccardo Cottarella (consultant)

TASTING NOTES

A refined blend of red grapes vinified as a rosé merges into a delicate mix that intrigues with its originality of aromas and flavors. Submitted to the sparkling process by the Charmat Method, this innovative brut sparkling wine elegantly combines an “edge” with immense smoothness and an ease of drinkability.

ABOUT THE WINERY

Genagricola's 'V8+ Vineyards' project was born in 2010 as an extension of Tenuta Sant'Anna to offer a line of sparkling wines, all made in the traditional charmat method. The elegant bottle is unusual and attractive. Grapes are rigorously sourced from the Tenuta Sant'Anna property (one of the largest land-owners in the area) and each wine carries the name of a Sior (*Sir* in the old Venitian dialect), the personification of each product with different characters within the Genagricola organization and their attitudes.
